### SOLID YEAR OF PROGRESS. STRONGER BUSINESS, BETTER PLACED TO MEET CHALLENGES AHEAD.

# **Full Year Highlights**

- Strong broad-based growth of 7.4% across categories, in line with our markets overall and driven by increased prices, combined with an underlying improvement in operating margin.
- More competitive cost base: €1.1 billion savings from supply chain and organisational efficiencies.
- Increased investment behind our brands.
- Commodity costs increased by €2.7 billion. Brand strength enabled pricing which offset most of the cost increases. Savings covered the remainder.
- Portfolio reshaped through disposals, including North American laundry, Boursin, Lawry's and Bertolli olive oil, and acquisition of Inmarko ice cream.
- Profits on disposals of €2 190 million pre-tax and €1 612 million post-tax. Earnings per share of €1.79 including
   €0.36 net benefit from RDIs (Restructuring, Disposals, and other items)
- Strong balance sheet. €3.6 billion cash returned to shareholders in 2008. Dividends to be increased and proposal to move to guarterly dividends from 2010.

#### **Fourth Quarter Highlights**

- Underlying sales growth of 7.3%. Price increases peaked in the quarter at over 9%. This, together with slowing economies and reduced inventories at retailers resulted in volumes being lower by 1.6%.
- Reduced volumes, dilution from disposals and exceptionally high increases in input costs put pressure on margins. Cost pressure expected to ease beyond the first quarter of 2009.
- Lower advertising and promotions reflecting easing media rates and in line with reductions in spend by competitors.

**Paul Polman, Chief Executive Officer:** "In 2008 the business made further solid progress. We achieved top line growth ahead of our target range and, faced with unprecedented input cost pressures, protected profit by early pricing action and savings programmes. The changes already made over the past few years have strengthened the business and leave us well placed to meet the challenges ahead. Whilst we have been more or less holding value share our priority will be to focus first and foremost on volume growth. At the same time we will protect cash and margins, driving our savings programmes even harder. By doing this we expect to emerge from the current conditions stronger and more competitive than ever.

Given the current economic uncertainty I believe it would be inappropriate at this stage to provide an outlook specifically for 2009 or to reaffirm the 2010 targets. That said, I am confident in the underlying strength of the business and over the longer term expect that we will deliver very competitive levels of growth and margin improvement."

5 February 2009

In the following commentary we report underlying sales growth (abbreviated to 'USG' or 'growth') at constant exchange rates, excluding the effects of acquisitions and disposals. Turnover includes the impact of exchange rates, acquisitions and disposals. Unilever uses 'constant rate' and 'underlying' measures primarily for internal performance analysis and targeting purposes. We also comment on trends in operating margins before RDIs (restructuring, disposals, and other one-off items) and use the movements in Ungeared Free Cash Flow and Return On Invested Capital to measure progress against our longer-term value creation goals. We may also discuss net debt, for which we provide an analysis in the notes to the financial statements. Unilever believes that such measures provide additional information for shareholders on underlying business performance trends. Such measures are not defined under IFRS and are not intended to be a substitute for GAAP measures of turnover, operating margin, profit, EPS and cash flow. Please refer also to note 2 to the financial statements. Further information about certain of these measures is available on our website at <a href="https://www.unilever.com/investorrelations">www.unilever.com/investorrelations</a>

#### 1 FINANCIAL PERFORMANCE

#### **Full Year**

Underlying sales growth of 7.4% was partly offset by movements in exchange rates (4.8%) and the net impact of disposals and acquisitions (1.4%). Including these effects, turnover was €40 523 million for the full year, increasing by 0.8%.

Operating profit increased by €1 922 million to €7 167 million, including a higher level of profits on business disposals. These generated a pre-tax profit of €2 190 million in 2008, compared with €297 million in 2007. Before the impact of RDIs (Restructuring, Disposals, and other one-off items), operating profit grew by 1% at current exchange rates, or 6% at constant exchange rates, and there was an underlying improvement in operating margin of 0.1 percentage points.

During the year we increased investment behind our brands and have now raised our annual spending on advertising and promotions by €1 billion over the past four years as well as benefiting from our media efficiency programmes. With the effect of the much higher selling prices, the ratio of advertising and promotions to turnover was 0.7 points lower than last year.

Net profit was 28% higher than last year, boosted by the profits on disposals. Earnings per share were €1.79, including a net gain of €0.36 from RDI's. This compared with €1.35 last year, which included a net loss of €0.07 from RDI's.

Net cash flow from operations at €3.9 billion was in line with last year. Total cash returns to shareholders in the year were €3.6 billion, made up of €2.1 billion of dividends and €1.5 billion of share buy-backs.

#### **Fourth Quarter**

In the fourth quarter underlying sales growth was 7.3% and turnover increased by 2.6%.

Operating profit increased by €361 million, with a higher level of profits on business disposals including the Bertolli and Komili olive oil businesses and plantations in Côte D'Ivoire. Before the impact of RDIs, there was an underlying reduction in operating margin of 0.7 percentage points. This reflected a combination of continued very large increases in input costs exacerbated by adverse currency movements, the effect of lower volumes and the impact of disposals which diluted operating margin by 0.3 percentage points.

We continued to invest strongly behind our brands in the fourth quarter and started to benefit from lower media rates in many countries as well as media efficiency programmes. Against a relatively high comparator the ratio of advertising and promotions to turnover was lower by 1.3 percentage points. This followed similar reductions by our competitors.

Net profit and earnings per share in the fourth quarter also benefited from the profits on disposals.

Additional commentary on the financial statements is provided on page 5.

#### 2. REGIONAL REVIEW FOR THE YEAR

The regional reporting below reflects changes made to our organisation during 2008. Our operations in Central & Eastern Europe (CEE) are now managed within an enlarged region comprising Asia, Africa and CEE (AAC). Western Europe is now a standalone region. **The segmental analysis on pages 11 and 12 provides full details on both the old and the new basis**, and the quarterly details on the new basis are being made available on the website at Unilever.com.

	Turnover € millions	Underlying Sales	Underlying change in
		Growth %	margin percent pts
Western Europe	12 853	+ 1.3 %	+ 0.7
Americas	13 199	+ 6.5 %	-
Asia Africa CEE	14 471	+ 14.2%	- 0.2
Unilever Total	40 523	+ 7.4%	+ 0.1

**Western Europe**: Underlying sales growth was 1.3% for both the year and the fourth quarter, with pricing contributing 3.8% and volume lower by 2.4% for the year. Volume consumption in our markets has reduced and shoppers are increasingly looking to economise on their purchases.

We have made good progress in simplifying the business including the integration of the separate units in each country and the formation of 'multi-country-organisations'. This is enabling faster decision making and more efficient operations. The European supply chain transformation is progressing well; so far, we have announced restructuring plans at twenty factories together with additional capital investments to increase efficiency. The implementation of a harmonised IT system across the region is now complete. The portfolio has been further focused with the sale of the Boursin cheese and Bertolli olive oil businesses.

The UK and the Netherlands, where the change programme is most advanced, performed well for the year as a whole and finished strongly with positive volume growth in the fourth quarter. In France, Spain and Germany markets have been difficult with branded products losing ground to private label. Across the region there was strong innovation-led growth in deodorants and oral care and price-driven growth in spreads and dressings.

The operating margin benefited from profits on disposals. On an underlying basis there was an improvement of 0.7 percentage points. Gross margins were lower as a result of the unprecedented increases in commodity costs, but this was more than offset by lower overhead costs and the benefits of spending efficiency programmes.

**The Americas:** Underlying sales grew by 6.5% for the year driven by pricing taken to recover commodity cost increases. Trading conditions deteriorated in the fourth quarter, with a drop in consumer confidence and purchasing power and a reduction of trade inventories. Despite this more difficult environment consumers continued to spend on our brands and underlying sales growth was sustained in the fourth quarter, although volumes were lower.

Underlying sales growth in the US was 3.8% for the year and 3.1% in the fourth quarter. Our sales have been very much in line with the markets. While there has been some down-trading from branded products to private label brands our own market shares have held up well. Growth in Latin America was around 12% for both the full year and the fourth quarter. All key countries have contributed well to this growth as we benefited from our established brands and the breadth of our portfolio.

The move to a single head office for the US in Englewood Cliffs was completed and the ice cream business has been integrated. We set up a new multi-country organisation made up of the US, Canada, and the Caribbean. This will enable us to build scale, drive efficiencies and enhance our capabilities across these countries during 2009. The reshaping of the portfolio continued with the disposals of Lawry's seasonings and spices and the North American laundry business. We signed agreements with Starbucks to include Tazo ready-to-drink tea in the Pepsi-Lipton joint venture and for the manufacture, marketing and distribution of Starbucks ice cream in the US and Canada.

The operating margin was boosted by profits on disposals. On an underlying basis the operating margin was in line with last year as overheads savings fully offset a lower gross margin from the sharp input cost increases.

**Asia Africa CEE:** Underlying sales growth of 14.2% in 2008 was again broad-based across countries and categories. Our top five Developing and Emerging market countries in the region grew by around 20% and all have grown from a combination of increased prices and higher volumes. In the fourth quarter underlying sales growth remained strong but volumes were flat with some countries seeing signs of a slow-down in consumption and a reduction in inventories by retailers.

Throughout the year we saw continued strong growth in India and Indonesia, both countries where we have tremendous scale. In these countries we are benefiting from portfolios which span higher and lower price tiers and from extensive micro-marketing tailored to faster growing areas and channels. Our business in China also grew well throughout the year.

The One Unilever organisation is in place throughout the region and the move to a single SAP system is progressing to plan with the implementation in Indonesia completed in January. Supply chain management for the region is being centralised in Singapore.

In April we acquired Inmarko, the leading ice cream company in Russia, and it has performed strongly with both sales and profits ahead of plan. In the fourth quarter we reshaped our portfolio in Côte D'Ivoire with the completion of the disposal of our palm oil business and the acquisition of soap brands in the same country.

On an underlying basis the operating margin was 0.2 percentage points below last year reflecting increased investment in building capabilities to drive growth and the sharp increases in input costs partly offset by the benefits of savings programmes.

# 3. CATEGORY REVIEW FOR THE YEAR

	Turnover € millions	Underlying Sales Growth %
Savoury, dressings and spreads	14 232	+ 7.6 %
Ice Cream and beverages	7 694	+ 5.9 %
Personal care	11 383	+ 6.6 %
Home Care & Other	7 214	+ 9.8 %
Unilever Total	40 523	+ 7.4 %

# Savoury, dressings and spreads

Growth has been driven by strong performance in the Americas and Asia Africa CEE and by price increases taken to recover unprecedented levels of cost increases in edible oils which particularly affected spreads and dressings. We have strengthened our core brands with campaigns to communicate the healthy goodness of margarine and mayonnaise as well as the inherent value-for-money of our products. Rama margarine has been reformulated for an even better taste with less fat, while Hellmann's mayonnaise in the UK and other countries in Europe now emphasises the benefits of free range eggs and other natural ingredients. Knorr Stock Pots, using new bouillon gel technology to make more authentic stocks, were introduced in China, in the UK, France and Spain. At the same time we are addressing the needs of increasingly value-conscious shoppers with both low unit price packs and larger 'value' packs of our well-known brands.

# Ice cream and beverages

Ice Cream grew well in Western Europe and in Developing and Emerging markets, while in the US profitability has been improved. Magnum and Ben & Jerry's ice creams performed particularly well with new products appealing to consumers' continuing desire for indulgence treats. These included new-look Magnum ice cream 'minis' in Europe, and the launch of the top-of-the-range Magnum ice cream 'Temptation'. Beverages showed strong, consistent growth through the year, with particularly good performances in key countries in the Asia Africa CEE region. We have been successfully up-trading consumers from loose leaf tea to tea bags and from regular bags to pyramid bags. PG Tips and Lipton teas now carry Rainforest Alliance certification in 12 countries in Europe and we have extended Lipton Linea slimming teas and Lipton Clear Green teas.

#### Personal care

Strong and well-balanced growth has been driven by innovative communication behind our global brands and new product launches targeting new benefits and new consumers. The latest Axe body spray 'Dark Temptation' with the effect of chocolate is on track to be the most successful variant yet. Towards the end of the year we launched a range of Axe hair products in North America including shampoo, conditioners and styling variants focused on young men. Continued support for Clear anti-dandruff shampoo was the key driver of hair care growth in Developing and Emerging

markets. In Asia we relaunched the Pond's skin care range, adding a 'masstige' tier supported by strong in-store programmes. In oral care, we launched Signal white now, the first whitening toothpaste with an instant effect. Rexona deodorants are being rolled out in China as the first step to building a market for the category in that country.

#### **Home Care and other**

The laundry category saw sharp increases in commodity costs which put pressure on gross margins. We raised prices to mitigate the cost increases and this, together with the challenging economic conditions, led to flat volumes. There was a continued good performance in household care. Across the home care category we launched margin enhancing innovation delivering new added value benefits. These included Small & Mighty concentrated liquid detergents, a global relaunch of detergent powders with encapsulated fragrance giving longer lasting freshness, a new version of Comfort fabric conditioner which releases fragrance as clothes are worn, and Cif Acti-Fizz spray cleaners which clean in one quick wipe. The roll-out of Small and Mighty also offered a more environmentally friendly option, as did Comfort 'one rinse' in Asia. Surf, our global value brand in fabric cleaning, is thriving in the current market conditions benefiting from global consumer insight adapted to local markets.

### 4. Additional commentary on the financial statements:

#### 4.1 Finance costs and tax

Costs of financing net borrowings were 1% lower than last year. The average interest rate was around 4.5%, offsetting the impact of a higher average level of net debt.

The effective tax rate was 26.4% and the underlying tax rate, before RDI's, was 26.6% for the full year. This compared with an underlying rate of 24.5% in 2007, which included substantial benefits from the favourable settlement of prior year tax audits. Our longer-term expectation for the underlying tax rate remains around 26%.

#### 4.2 Joint ventures, associates and other income from non-current investments

Share of net profit from joint ventures and associates and other income from non-current investments contributed €219 million. This included a gain of €61 million in the fourth quarter in non-current investments resulting from the disposal of our interests in plantations in Côte D'Ivoire. Last year included a similar level of one-time gains in associates in the first quarter.

#### 4.3 Return on Invested Capital

Return on invested capital was 15.7%, boosted by profits on business disposals. Excluding profits on disposals, ROIC was 11.2%, broadly in line with 2007 on a comparable basis.

#### 4.4 Cash Flow

Cash flow from operations of €5.3 billion was €0.1 billion higher than last year. Lower cash costs of pensions more than offset higher restructuring charges and a €0.2 billion increase in working capital. Tax paid was also €0.1 billion higher, resulting from additional one-off tax payments in 2008. Net cash flow from operations of €3.9 billion was in line with last year.

Ungeared free cash flow was €3.2 billion, which was €0.6 billion lower than last year. The effect of underlying growth in operating profit was offset by business disposals and adverse currency movements. It also reflects higher restructuring costs, additional investment in capital expenditure and higher working capital and tax rates.

# 4.5 Dividends and share buy-backs

The proposed final dividend of €0.51 for NV takes the total dividend for the year to €0.77, an increase of 3%. The proposed final dividend of 40.19p for PLC takes the total dividend to 60.74p, an increase of 19%. The difference in the rates of increase reflects the weakening of Sterling against the Euro. Further details, including the US dividends, can be found on page 16.

It is proposed to simplify the current practice of setting dividends, with a move to paying dividends on a quarterly basis. This is explained further on page 17.

During the year, 75 million shares were bought back at a total cost of €1.5 billion.

#### 4.6 Balance sheet

The appreciation of the euro against many of the Group's operating currencies has had the effect of reducing many of the reported asset and liability balances. Higher cash balances reflect the decision to maintain strong liquidity and the proceeds of the sale of the Bertolli olive oil business. Working capital balances are up in response to higher underlying turnover.

#### 4.7 Pensions

The overall net liability for all pension arrangements was €3.4 billion at the end of 2008, up from €1.1 billion at the end of 2007. Funded schemes show an aggregate deficit of €1.4 billion and unfunded arrangements show a liability of €2.0 billion. The increase in overall balance sheet liability is largely due to the falls in asset values on world markets, partly offset by higher discount rates for liabilities. In 2009 we currently expect cash contributions to be higher than in 2008, but slightly below the levels in the preceding two years.

#### 5 OTHER INFORMATION

As previously announced, Unilever is currently engaged with both the European Commission and other national competition authorities in ongoing investigations in Europe. We continue to cooperate fully with all ongoing investigations.

### **CAUTIONARY STATEMENT**

This announcement may contain forward-looking statements, including 'forward-looking statements' within the meaning of the United States Private Securities Litigation Reform Act of 1995. Words such as 'expects', 'anticipates', 'intends', 'believes', or the negative of these terms and other similar expressions of future performance or results, including financial objectives to 2010, and their negatives are intended to identify such forward-looking statements. These forward-looking statements are based upon current expectations and assumptions regarding anticipated developments and other factors affecting the Group. They are not historical facts, nor are they guarantees of future performance. Because these forward-looking statements involve risks and uncertainties, there are important factors that could cause actual results to differ materially from those expressed or implied by these forwardlooking statements, including, among others, competitive pricing and activities, consumption levels, costs, the ability to maintain and manage key customer relationships and supply chain sources, currency values, interest rates, the ability to integrate acquisitions and complete planned divestitures, the ability to complete planned restructuring activities, physical risks, environmental risks, the ability to manage regulatory, tax and legal matters and resolve pending matters within current estimates, legislative, fiscal and regulatory developments, political, economic and social conditions in the geographic markets where the Group operates and new or changed priorities of the Boards. Further details of potential risks and uncertainties affecting the Group are described in the Group's filings with the London Stock Exchange, Euronext Amsterdam and the US Securities and Exchange Commission, including the Annual Report on Form 20-F. These forward-looking statements speak only as of the date of this document. Except as required by any applicable law or regulation, the Group expressly disclaims any obligation or undertaking to release publicly any updates or revisions to any forward-looking statements contained herein to reflect any change in the Group's expectations with regard thereto or any change in events, conditions or circumstances on which any such statement is based.

### 1 ACCOUNTING INFORMATION AND POLICIES

The condensed preliminary financial statements are based on International Financial Reporting Standards (IFRS) as adopted by the EU and IFRS as issued by the International Accounting Standards Board. The basis of preparation is consistent with the year ended 31 December 2007.

The condensed financial statements are shown at current exchange rates, while percentage year-on-year changes are shown at both current and constant exchange rates to facilitate comparison.

The income statement on page 7, the statement of recognised income and expense and the cash flow statement on page 8 and the movements in equity on page 15 are translated at rates current in each period.

The balance sheet on page 9 and the analysis of net debt on page 14 are translated at period-end rates of exchange.

The financial statements attached do not constitute the full financial statements within the meaning of Section 240 of the UK Companies Act 1985. Full accounts for Unilever for the year ended 31 December 2007 have been delivered to the Registrar of Companies. The auditors' report on these accounts was unqualified and did not contain a statement under Section 237(2) or Section 237(3) of the UK Companies Act 1985.

#### 2 NON-GAAP MEASURES

In our financial reporting we use certain measures that are not recognised under IFRS or other generally accepted accounting principles (GAAP). We do this because we believe that these measures are useful to investors and other users of our financial statements in helping them to understand underlying business performance. Wherever we use such measures, we make clear that these are not intended as a substitute for recognised GAAP measures. Wherever appropriate and practical, we provide reconciliations to relevant GAAP measures.

The principal non-GAAP measure which we apply in our quarterly reporting is underlying sales growth, which we reconcile to changes in the GAAP measure turnover in notes 4 and 5. In note 8 we reconcile net debt to the amounts reported in our balance sheet and cash flow statement. We also comment on underlying trends in operating margin, by which we mean the movements recorded after setting aside the impact of restructuring, disposals and other one-off items, on the grounds that the incidence of these items is uneven between quarterly reporting periods. In addition, we report annually against two further non-GAAP measures: Ungeared Free Cash Flow and Return on Invested Capital. Further information about these measures and their reconciliation to GAAP measures is given on our website at www.unilever.com/investorrelations

#### 3 SIGNIFICANT ITEMS WITHIN THE INCOME STATEMENT

In our income statement reporting we recognise restructuring costs, profits and losses on business disposals and certain other oneoff items, which we collectively term RDIs. We disclose on the face of our income statement the total value of such items that arise within operating profit. In our operating review by geographic segment and in note 4 we highlight the impact of these items on our operating margin. The following schedule shows the impact on net profit of RDIs arising within operating profit, together with the related tax effect and also highlights the impact of similar one-off items arising elsewhere in the income statement.

#### €million

# **SEGMENTAL ANALYSIS BY GEOGRAPHY - NEW BASIS**

On 28 February 2008 Unilever announced a number of organisational changes. As part of these changes, our operations in Central and Eastern Europe are now being managed within an enlarged region together with those in Asia and Africa (AAC), with Western Europe becoming a standalone region. This change reflects our strategic focus on the developing world and the fact that many of the markets within the extended AAC region share many common characteristics. Since these changes took place progressively during 2008, we have for earlier quarters in 2008 reported against our structure as it applied in 2007. On page 12 we provide additional analysis of our regional results against that previous structure.

Western

Asia Africa

# 9 MOVEMENTS IN EQUITY

€million	Full Yea	ar
	2008	2007
Equity at 1 January	12 819	11 672
Total recognised income and expense for the period	1 140	4 351
Dividends	(2 052)	(2 070)
Movement in treasury stock	(1 417)	(1 054)
Share-based payment credit	125	140
Dividends paid to minority shareholders	(208)	(251)
Currency retranslation gains/(losses) net of tax	(38)	(18)
Other movements in equity	3	49
Equity at the end of the period	10 372	12 819

During the year we purchased shares to the value of €1.5 billion under the share buy-back programme.

# 10 COMBINED EARNINGS PER SHARE

The combined earnings per share calculations are based on the average number of share units representing the combined ordinary shares of NV and PLC in issue during the period, less the average number of shares held as treasury stock.

In calculating diluted earnings per share, a number of adjustments are made to the number of shares, principally the following: (i) conversion into PLC ordinary shares in the year 2038 of shares in a group company under the arrangements for the variation of the Leverhulme Trust and (ii) the exercise of share options by employees.

Earnings per share for total operations for the full year were calculated as follows:

	2008	2007	
Combined EPS – Basic	Millions of units		
Average number of combined share units	2 809.6	2 874.6	
	€ million		
Net profit attributable to shareholders' equity	5 027	3 888	
Combined EPS (Euros)	1.79	1.35	
Combined EPS – Diluted	Millions of unit	Millions of units	
Adjusted average number of combined share units	2 905.9	2 976.1	
Combined EPS – diluted (Euros)	1.73	1.31	
Impact of RDIs on Earnings Per Share			
T. (1) (CD) (C)	€million	(400)	
Total impact of RDIs on reported net profit (see note 3)	1 018	(186)	
Impact of RDIs on basic earnings per share (Euros)	0.36	(0.07)	

The numbers of shares included in the calculation of earnings per share is an average for the period. During the period the following movements in shares have taken place:

	Millions
Number of shares at 31 December 2007 (net of treasury stock)	2 853.1
Net movements in shares under incentive schemes	11.4
Share buy-back	(75.4)
Number of shares at 31 December 2008	2,789.1

#### 11 DIVIDENDS

The Boards have resolved to recommend to the Annual General Meetings for PLC and NV, to be held on 13 May 2009 and 14 May 2009 respectively, the declaration of final dividends in respect of 2008 on the Ordinary capitals at the following rates which are equivalent in value at the rate of exchange applied in terms of the Equalisation Agreement between the two companies:

#### Unilever N.V.

€0.51 per ordinary share\* (2007: €0.50). Together with the interim dividend of €0.26 already paid, this brings the total of NV's interim and final dividends for 2008 to €0.77 per ordinary share (2007: €0.75).

\* Unilever N.V. ordinary shares and Unilever N.V. depositary receipts for ordinary shares.

#### **Unilever PLC**

40.19p per ordinary share (2007: 34.11p). Together with the interim dividend of 20.55p already paid, this brings the total of PLC's interim and final dividends for 2008 to 60.74p per ordinary share (2007: 51.11p).

The NV final dividend will be paid on 18 June 2009, to shareholders registered at close of business on 20 May 2009 and will go exdividend on 18 May 2009.

The PLC final dividend will be paid on 18 June 2009, to shareholders registered at close of business on 22 May 2009 and will go ex-dividend on 20 May 2009.

#### Dividend on New York shares of NV

The New York shares of NV will go ex-dividend on 18 May 2009; US dollar checks for the final dividend on the New York shares of €0.16 nominal amount after deduction of Netherlands withholding tax at the appropriate rate, converted at the euro/dollar European Central Bank rate of exchange on 14 May 2009 will be mailed on 17 June 2009, to holders of record at the close of business on 20 May 2009. If converted at the euro/dollar rate of exchange on 4 February 2009, the NV final dividend would be US \$0.6537 per New York share (2007 final dividend: US \$0.7737 actual payment) before deduction of Netherlands withholding tax. With the interim dividend in respect of 2008 of US \$0.3320 at the actual euro/dollar conversion rate, already paid, this would result in a total for regular interim and final dividends in respect of 2008 of US \$0.9857 per New York Share (2007: US \$1.1349 actual payment).

#### **Dividend on American Depositary Receipts of PLC**

The American Depositary Receipts will go ex-dividend on 20 May 2009; US Dollar checks for the final dividend on the American Depositary Receipts in PLC converted at the sterling/dollar rate of exchange current in London on 13 May 2009 will be mailed on 17 June 2009, to holders of record at the close of business on 22 May 2009. If converted at the sterling/dollar rate of exchange on 4 February 2009, the PLC final dividend would be US \$0.5780 per American Depositary Receipt in PLC (2007 final dividend: US \$0.6615 actual payment). With the interim dividend in respect of 2008 of US \$0.3301 at the actual sterling/dollar conversion rate, already paid, this would result in a total for regular interim and final dividends in respect of 2008 of US \$0.9081 per American Depositary Receipt in PLC (2007: US \$1.0140 actual payment).

#### 12 DIVIDEND POLICY FOR 2010

Unilever's policy is to seek to pay an attractive, sustainable and growing dividend to shareholders. We propose to change to a simpler and more transparent dividend practice for the Unilever group. These changes will result in more frequent dividend payments to shareholders, and better align the payments with the cash flow generation of the business.

The proposed changes will simplify the dividend mechanics:

- There will be one dividend calendar for all listings in Amsterdam, London and New York, with four quarterly dividend payments to shareholders per calendar year.
- Each quarterly dividend will be announced with the quarterly results, with payment dates in March, June, September and December respectively.
- All dividends will be determined in Euros, which is our reporting currency.
- The Euro dividend amount will be converted into equivalent Sterling and US Dollar amounts using the spot rates of exchange two days before the announcement date.

The planned dividend calendar for 2009 and 2010 will be as follows:

	Announcement Date	Ex-Dividend Date	Record Date	Payment Date
Calendar Year 2009				
Final dividend – for 2008				
- NV shares listed in Amsterdam	5-Feb-09	18-May-09	20-May-09	18-Jun-09
- PLC shares listed in London	5-Feb-09	20-May-09	22-May-09	18-Jun-09
- NV shares listed in New York	5-Feb-09	18-May-09	20-May-09	18-Jun-09
<ul> <li>PLC ADR's listed in New York</li> </ul>	5-Feb-09	20-May-09	22-May-09	18-Jun-09
Interim dividend – for 2009	5-Nov-09	18-Nov-09	20-Nov-09	16-Dec-09
Calendar Year 2010				
Quarterly dividend – for Q4 2009	4-Feb-10	10-Feb-10	12-Feb-10	17-Mar-10
Quarterly dividend – for Q1 2010	6-May-10	12-May-10	14-May-10	16-Jun-10
Quarterly dividend – for Q2 2010	5-Aug-10	11-Aug-10	13-Aug-10	15-Sep-10
Quarterly dividend – for Q3 2010	4-Nov-10	10-Nov-10	12-Nov-10	15-Dec-10

The required changes to the Equalisation Agreement and the NV Articles of Association will be tabled at the Annual General Meetings in May 2009.

If approved the new exchange rate convention will become effective immediately after the AGM's. Accordingly the 2009 interim dividend will be determined in Euros and subsequently converted into equivalent Sterling and US Dollars amounts using spot rates of exchange on 3<sup>rd</sup> November 2009. It is our intention to set the 2009 interim dividend to at least 35% of the 2008 total Euro dividend.

The new quarterly dividend calendar will become effective from 1 January 2010.

# Notes:

- (i) Currently Unilever pays an interim dividend in December, equal to 35% of the prior year total dividend, and a final dividend in June of the following year. The interim dividend is set in the stronger of the two currencies (Euros or Sterling) and converted into the other currency based on the average rate for the third quarter. The final dividend is translated between Euros and Sterling using an annual average rate. The US Dollar equivalents are set based on the spot rate on the day before announcement for the interim dividend and on the day of the AGM for the final dividend.
- (ii) The total amount of Euro dividend available for payment to shareholders in 2009 and 2010 will not be affected by these changes in dividend mechanics, although the payment pattern and exchange rate convention will be different. From 2010 onwards, this will create a simpler and more transparent dividend practice for the Unilever group.
- (iii) We intend to use the daily exchange rates issued by the European Central Bank as the basis for the conversion of Euro dividend into equivalent Sterling and US Dollar dividend amounts. These equivalent Sterling and US Dollar dividend amounts may vary each quarter depending on the foreign exchange rate fluctuations.
- (iv) These changes do not apply to the NV cumulative preference shares.

#### 13 ACQUISITIONS AND DISPOSALS

With effect from 1 January 2008, we entered into an expanded international partnership with Pepsico for the marketing and distribution of ready-to-drink tea products under the *Lipton* brand.

On 3 January 2008 we completed the sale of the Boursin brand to Le Groupe Bel for €400 million. The turnover of this brand in 2007 was approximately €100 million.

On 2 April 2008 we completed the acquisition of Inmarko, the leading Russian ice cream company. The company had a turnover in 2007 of approximately €115 million.

On 31 July 2008 we completed the sale of our Lawry's and Adolph's branded seasoning blends and marinades business in the US and Canada to McCormick & Company Incorporated for €410 million. The combined annual turnover of the business is approximately €100 million.

On 9 September 2008 we completed the sale of our North American laundry business in the US, Canada and Puerto Rico to Vestar Capital Partners, a leading global private equity firm, for a face value of US \$1.45 billion. These businesses had a combined turnover in 2007 of approximately US \$1.0 billion.

On 31 October 2008 we completed the sale of Komili, our olive oil brand in Turkey, to Ana Gida, part of the Anadolu Group.

On 4 December 2008 we completed the sale of our edible oil business in Côte d'Ivoire, together with our interests in local oil palm plantations Palmci and PHCI,to SIFCA, the parent company of an Ivorian agro-industry group, and to a 50:50 joint venture between two Singapore-based companies, Wilmar International Limited and Olam International Limited. At the same time we acquired the soap business of Cosmivoire, a subsidiary of SIFCA.

On 23 December 2008 we completed the disposal of our Bertolli olive oil and vinegar business to Grupo SOS, for a consideration of €30 million. The transaction was structured as a worldwide perpetual licence by Unilever of the Bertolli brand in respect of olive oil and premium vinegar. The transaction included the sale of the Italian Maya, Dante and San Giorgio olive oil and seed oil businesses, as well as the factory at Inveruno, Italy.

On 26 January 2009 we announced that we had signed an agreement to acquire the global TIGI professional hair product business and its supporting advanced education academies for a cash consideration of US \$ 411.5 million. The deal is subject to regulatory approval and is expected to be completed by the end of March 2009.
